

Facilitator Version: Course 3 | Airport Stormwater Plans, Inspections, & Reporting

Circle the correct answer. (Correct answers are in **Red BOLD**)

1. A ____ is a conveyance or system of conveyances owner and operated by the State or local government entity that discharges to US waters.

- A. EPA
- B. MS4 (correct)**
- C. SWPPP
- D. SWMP

2. An oil/water separator is an example of a ____ BMP.

- A. Structural (correct)**
- B. Non-structural
- C. Non compliant
- D. None of the above

3. True / **False**

Secondary containment barriers around fuel tanks are an example of a non-structural BMP.

Correct answer: Secondary containment barriers are a structural containment.

4. Urban areas are defined by the _____.

- A. State population agencies
- B. Local community
- C. Federal Aviation Agency
- E. US Census Bureau (correct)**

5. Which two stormwater quality documents are often combined into one plan to ease the Airport's burden in maintaining two separate documents?

- A. SWPPP and SWMP (correct)**
- B. SWPPP and MS4
- C. NPDES and SWPPP
- D. All of the above

6. A TMDL is the amount of ____ a waterbody can receive and still meet water quality standards.

- A. MS4
- B. sodium
- C. pollutant (correct)**
- D. EPA

Facilitator Version: Course 3 | Airport Stormwater Plans, Inspections, & Reporting

7. Which type of stormwater plan describes procedures, methods, equipment and other criteria to prevent the discharge of oil products and hazardous substances into or upon US water or adjoining shorelines?

- A. SWMP
- B. SWPPP
- C. MS4
- D. **SPCC (correct)**

8. **True** / False:

The SPCC stormwater plan focuses on oil and fuel amounts at airports and establishes control and response procedures to mitigate a spill.

9. _____ is one of the main pollutants in stormwater runoff.

- A. Waste water
- B. Garbage
- C. **Soil Erosion (correct)**
- D. None of the above

10. A SWPPP site map contains:

- A. Stormwater flow direction and receiving waters
- B. Property boundaries
- C. Locations of previous spills and locations of regulated activities exposed to the elements
- D. **All of the above (correct)**
