

## Final Quiz: Course 3 | Airport Stormwater Plans, Inspections, & Reporting

Name \_\_\_\_\_

Circle the correct answer.

1. A \_\_\_\_ is a conveyance or system of conveyances owner and operated by the State or local government entity that discharges to US waters.

- A. EPA
- B. MS4
- C. SWPPP
- D. SWMP

2. An oil/water separator is an example of a \_\_\_\_ BMP.

- A. Structural
- B. Non-structural
- C. Non-compliant
- D. None of the above

3. True / False

Secondary containment barriers around fuel tanks are an example of a non-structural BMP.

Correct answer: Secondary containment barriers are a structural containment.

4. Urban areas are defined by the \_\_\_\_\_.

- A. State population agencies
- B. Local community
- C. Federal Aviation Agency
- E. US Census Bureau

5. Which two stormwater quality documents are often combined into one plan to ease the Airport's burden in maintaining two separate documents?

- A. SWPPP and SWMP
- B. SWPPP and MS4
- C. NPDES and SWPPP
- D. All of the above

6. A TMDL is the amount of \_\_\_\_ a waterbody can receive and still meet water quality standards.

- A. MS4
- B. sodium
- C. pollutant
- D. EPA

## Final Quiz: Course 3 | Airport Stormwater Plans, Inspections, & Reporting

Name \_\_\_\_\_

7. Which type of stormwater plan describes procedures, methods, equipment and other criteria to prevent the discharge of oil products and hazardous substances into or upon US water or adjoining shorelines?

- A. SWMP
- B. SWPPP
- C. MS4
- D. SPCC

8. True / False:

The SPCC stormwater plan focuses on oil and fuel amounts at airports and establishes control and response procedures to mitigate a spill.

9. \_\_\_\_\_ is one of the main pollutants in stormwater runoff.

- A. Waste water
- B. Garbage
- C. Soil Erosion
- D. None of the above

10. A SWPPP site map contains:

- A. Stormwater flow direction and receiving waters
- B. Property boundaries
- C. Locations of previous spills and locations of regulated activities exposed to the elements
- D. All of the above

## Final Quiz: Course 3 | Airport Stormwater Plans, Inspections, & Reporting

Name \_\_\_\_\_

1. A \_\_\_\_ is a conveyance or system of conveyances owner and operated by the State or local government entity that discharges to US waters.
  - A. EPA
  - B. MS4
  - C. SWPPP SWMP
  
2. An oil/water separator is an example of a \_\_\_\_ BMP.
